

Segmental Retaining Wall Installer Certification

GeoStone is proud to sponsor the NCMA Segmental Retaining Wall Installer Certification Course! Each year this course is attended by novice and experienced trades in the segmental retaining wall industry. Contractors, designers, product distributors and municipal officials have found this course to be a “must-have” educational tool in understanding and installing segmental retaining walls. We invite YOU to take part in this exciting training and certification opportunity!

Benefits of the Course:

- Installation practices
 - how segmental retaining walls work
 - how construction practices affect performance of a segmental retaining wall
- Product & equipment awareness
 - what type of equipment is best for the job
- Industry recognition
 - establishes credentials setting you above the competition
 - enhanced recognition by customer
 - demonstrates dedication to business & industry
- Establish technical resources & contacts
 - material supplier benefits
 - contractor benefits
 - customer benefits
